Summary

Software Developer with expertise in Frontend and Backend Development.

Technical Skills

Frontend - HTML, CSS, Javascript, React Js, Bootstrap, Tailwind, Wordpress(Basics)

Backend - Java

Database - mySQL, PL/SQL

Work Experience

Software Developer - Shrisoft System Solutions | Oct 2022 - Present

Utilized a comprehensive tech stack comprising HTML, CSS, JavaScript, SQL, PL/SQL and Oracle APEX (Low-Code application) to drive both frontend and backend development initiatives.

Achieved a significant enhancement in data retrieval efficiency from SQL databases, resulting in a remarkable 40-50% reduction in frontend loading time, thereby optimizing user experience.

Presented developed processes in client meetings, enhancing user experience and increasing work efficiency by 20-30%. Contributed to an Enterprise Resource Planning Team, worked on modules like CRM, Projects and Procurement.

Projects

OneShop : Frontend Development

[Visit Website](#) 

Tech Stack : HTML, Tailwind CSS, Javascript

- Enjoy effortless browsing with our responsive e-commerce website, offering a comfortable and clean UI across all devices.
- Implemented features like offers, manage orders, and personalize experience with ease through the intuitive menu options and profile section.
- Comfortable and clean UI for better user experience, leads in enhancing usability and engagement by 50-60%.

Healthy Khaao : Frontend Development

[Visit Website](#) 

Tech Stack : HTML, Bootstrap CSS, Javascript

- Developed and executed a comprehensive Health Diets and Exercises project, providing tailored nutritional guidance and exercise plans to promote a healthy lifestyle.
- Incorporated user-friendly features such as water intake tracking and an extensive FAQ section, empowering users with comprehensive resources to enhance their health journey.

Notelt : Frontend and Backend Development

Tech Stack : HTML, Bootstrap CSS, Javascript, PHP, mySQL

- Developed a robust frontend interface using HTML, CSS, and Bootstrap CSS, complemented by a backend powered by PHP.
- Integrated MySQL database management to securely store user login credentials and application data and efficiently accessing it back which leads in reduction of front-end loading time by 30-40%, ensuring seamless access from any device.
- Implemented a streamlined login/signup process for users to access personalized notes, to-dos, and event planning features. Enhanced user experience with an in-built calculator and categorized note section, optimizing organization and minimizing app switching actions by 20%.

Tic Tac Toe : Frontend Development

Tech Stack : HTML, CSS, Javascript

- Tic Tac Toe game with user-friendly interface and fully working. Includes features like Score visualization, Round selection options and winner announcement template which increases user interaction by 50-60%.
 - Developed the core game mechanics, allowing users to take turns and make valid moves on the board. Implemented a mechanism to check for a win or a draw after each move to determine the game's outcome.
-

Education

Savitribai Phule Pune University (SPPU)

Modern College of Arts, Commerce and Science, Ganeshkhind Pune

Bachelor's Degree in Computer Science | 2019 - 2022

Certifications

Core Java - Techno Comp Academy, Sangvi, Pune

Advanced Java - Techno Comp Academy, Sangvi, Pune
